**ATTENTION GUESTS**

The health and safety of our patrons is our number one priority. We continue to closely monitor Centers for Disease Control and Prevention (CDC) guidelines and public health advancements, and we have implemented operational procedures and protocols that you need to know before you make your next trip to Remington Park.

**Temperature Screenings and Face Coverings.** All patrons and employees entering Remington Park will be checked for temperature. Individuals with a temperature at or over 100.4°F (38°C) will not be allowed to enter Remington Park. Patrons and employees are required to wear protective coverings over their nose and mouth at all times. Guests who choose not to comply will be asked to leave the property.

**Enhanced Cleaning and Disinfecting Protocols.** Enhanced cleaning procedures will be followed, including the use of battery-powered sprayers and EPA-certified chemicals during daily closures as well as more frequent manual disinfection processes with EPA-registered disinfectant on high-touch surfaces like door handles, railings, elevator buttons, ATMs, electronic gaming machines and other hard surfaces. The number of hand sanitizer dispensers has been increased and will be placed at guest and employee entrances and exits as well as high-contact areas.
